: [REDACTED]/Authorization for Purchase of Air Conditioning Units

25X1A REFERENCE

:

ACTION REQUIRED : Cable Authorization for Procurement of Six (6)
Air Conditioners

(7)

3

1. In accordance with para 6 of reference regulation, purchase authority is requested for the procurement of six (6), 3/4 ton air conditioning units for use in the new dispensary.

2. The justification for the air conditioners and the location of the units are listed below:

a. Bulk Storage Room (2)

-

each 2 - 0

This storeroom will house and protect large inventory of medical supplies on hand. Present system of storage leads to rapid deterioration due to extreme heat.

b. Surgery Room

-

each 1 [✓] (Reorder 2 units)
J. L. [REDACTED]

This room is used for minor surgical operations. The room is equipped with multiple lights and the need for proper operating procedures necessitates several layers of sterilized clothing. The minimum of one (1) conditioner is required.

c. Pharmacy

-

each 1 - 0

This room contains ready mixed drugs, pharmaceuticals and other supplies which deteriorate rapidly due to excessive temperatures. The present method of storage causes a re-supply problem in that the strength of the drugs deteriorates and causes re-ordering on a continuing basis.

d. Combination X-Ray and Dark Room

Page 2

25X1A6c

d. Combination X-Ray and Dark Room - each 1

The X-ray and development room are used for taking x-rays, developing and reading them.

e. Sound-proof Quiet Room - each 1

For security reasons this quiet room is sealed off and sound-proofed since it may be used by foreign nationals who are in training and require emergency surgery and medical treatment.

3. The need for the six (6) air conditioners has been discussed at great length with [REDACTED] medical personnel. This request represents the minimum number of air conditioning units needed for use in the new dispensary. It would be appreciated if we could be notified of your decision by cable.
